PPT Index of Investors / Funders: Foreign Governments

(As at 21st October 2005)

Notes: 1) Disclaimer: The information below has been obtained on a non-commissioned basis. This is not intended as a comprehensive Index and may not be accurate or up to date in all respects. It is made available by PPT solely for the purposes of assisting other organisations and individuals involved in development. PPT may not be held responsible for any errors. 2) Copyright: The information below was collected at PPT's own cost and may not be used by other parties for commercial gain without PPT's prior consent. 3) Feedback: PPT would appreciate any feedback, comments or additional information relating to this Index. Any such information will be used to update this Index and will be made freely available. 4) Definitions: Open funders are defined as those which will consider direct applications (eg: from municipalities, grassroots organisations or NGO's) whereas closed funders are defined as those which typically will not consider such applications and have already allocated their funding via pre-defined programs and intermediaries, usually national government. 5) Additional information: In some cases PPT has additional information on some funders on its files and this information is available on request.
